WE ARE HERE

TO Stay!

THE WAGES and taxes paid by this company can be counted on to share the costs of our schools and other civic facilities for a long time to come.

We expect to use our lands over and over again for successive tree crops—WE ARE IN THIS COMMUNITY TO STAY.

People who work for us and with us can look forward to continuous employment. Like most other forest industries today, we are in the settled business of processing a crop which, with good management, can be a year-in-and-year-out undertaking.

We take a forest harvest, but leave the woods productive.
