**FUEL OIL RENEWALS MUST BE RETURNED IMMEDIATELY**

Householders of Morrow county were urged today by P. A. Mollahan, chairman of the local OPA year price and rationing board, to return their next season's fuel oil renewal forms as promptly as possible.

Forms were mailed out this morning by the board to all fuel oil users in this area, Mollahan said. "The sooner these forms are filled out and returned bymail to the board," he added, "the sooner we can begin processing them and issuing oil ration coupons. We would like to have the forms returned within seven days."

"The sooner the coupons are issued the better," he said, "because it is necessary for consumers to order part of their next season's supply of heating oil immediately. When dealers make their first deliveries during the summer, they are able to give consumers better service throughout the heating year because it will help them solve their pressing manpower and delivery problems. More important, filling consumers' tanks early will add appreciably to dealers' storage capacity and thereby allow more oil to be brought in now for use next winter."

The new re-application form contains only six simple questions which the board needs answered in order to renew rations for private dwellings for next year, and is to be filled out only by those persons whose oil ration last year was for the same address as this year.
