Do Your Part on the Home Front

Housewives are home front soldiers! They are doing their part toward victory by saving waste fats and canning fruit. More women will put up jams, jellies and preserves than any other single food. Next in importance will be fruits and vegetables.

In anticipation of this season's heavy canning we have put in a full line of jars and trimmings. So get your jars and trimmings early.

Remember the expiration date headache is over on your point stamps but keep your tokens in circulation.

Fresh strawberries now coming in. Also they are under price control to prevent runaway prices.

Deliveries made Mondays, Thursdays and Saturdays. Stock up these days and save shoe leather.

IT ISN'T very likely you'll be called upon, personally, to fight forest fires *after* they start.

But there's plenty you can do to fight them *before* they start.

For most of them are preventable. Careless smokers cause a quarter of them. Incendiaries another quarter. Campers cause 6.6%.

Fire in the woods rolls up a national loss of \$30,000,000 to \$45,000,000 every year. New growth in our forests would exceed timber harvested in normal years, if fire losses and other natural hazards were eliminated.

Your help will aid in conserving, for perpetual use, America's most versatile and only renewable natural resource.

Forest Fact!

Logging operations caused less than two per cent of forest fires from 1935 to 1939, according to the U.S. Forest Service.
