To lubricate Uncle Sam's submarine Diesel engines so they run clean and smooth on long cruises, the Navy uses RPM DELO.

The Navy is sharing this "secret weapon" with the home front . . . and RPM DELO is doing a great job in thousands of tractor, truck, marine and stationary Diesel engines. It's specially compounded to prevent sludging and gummed-up pistons — it actually cleans and frees rings stuck through use of other oils. Millions of test miles in laboratories and actual service proved that it just about **DOUBLES THE TIME BETWEEN OVERHAULS.** The Navy can't afford to take chances with its fighting Diesels—and neither can you. Get RPM DELO and you get the all-around lubricant for all Diesels.
