

Volunteer Smoke Chasers Busy in Lone Neighborhood

By MRS. OMAR RIETMANN

Volunteer fire fighters have been kept busy this past week with two large fires. The first occurred at Leo Gorger farm north of Lone on Thursday, the fire starting back of the combine and burned nearly 200 acres of fine wheat before it was brought under control. The second fire on Friday was probably started by a careless smoker beside the highway near the A. C. Crowell farm at Morgan. The fire aided by a brisk wind, burned quickly over the hill where it began burning in the stubble field belonging to Ed Buschke. Fortunately, fire fighters stopped it as it swept across his field before it came to any standing wheat.

TRUCK OPERATORS MUST KEEP OWN RECORDS

ODT will no longer be able to furnish additional forms CWN-17 and CWN-17a, the forms used for weekly operating records and tire inspection records according to Marshall E. Neuman, district manager. Truck operators must con-

tinue to keep the same records as in the past, but keep them on their own forms. The CWN-17 and CWN-17a forms that you now have should be used as long as possible.

It has been suggested that the back of the certificate of war necessity be used for tire inspection notations by official OPA tire inspectors.

Harriett was ill several months during the winter and since that time has not made satisfactory improvement. Mrs. Isom will remain with her while Mr. Isom expected to return home in a day or two.

STATE INVESTS \$4,888,440 IN FIFTH WAR LOAN

Participation of the state of Oregon in the Fifth War Loan amounted to a purchase of \$4,888,440 as fixed by the state bond commission on recommendation of State Treasurer Leslie M. Scott, and was announced by Governor Earl Snell, chairman. L. O. Arens, member state industrial commission is the other commission member.

The bulk of bonds purchased are early maturities, according to Scott, which was deemed necessary because of the needs of the state for cash to carry on its activities such as post-war plans beneficial to returned servicemen and industrial workers no longer engaged in war plant work.

WOOD HAS A JOB IN PEACE... as in war

IT ISN'T very likely you'll be called upon, personally, to fight forest fires after they start.

But there's plenty you can do to fight them before they start.

For most of them are preventable. Careless smokers cause a quarter of them. Incendiaries another quarter. Campers cause 6.6%.

Fire in the woods rolls up a national loss of \$30,000,000 to \$45,000,000 every year. New growth in our forests would exceed timber harvested in normal years, if fire losses and other natural hazards were eliminated.

Your help will aid in conserving, for perpetual use, America's most versatile and only renewable natural resource.

Forest Fact!
Logging operations caused less than two per cent of forest fires from 1935 to 1939, according to the U.S. Forest Service.
