DANCE WELL ATTENDED

Members of Rhea Creek grade reported a most successful dance Saturday evening in which the coffers of the grade were greatly revitalized and Uncle Sam got a nice "tilt-up". A total of 295 tickets was the intake of the evening, sold on an admission basis rather than a couple. In addition another \$100.00 was taken in on coffee and refreshments. Not a bad evening's work!

FOREST ENEMY NO. 1

GOOD forestry which seeks to keep American forests continuously at work growing successive timber crops is just one long battle with FIRE, say most foresters.

Nature is bountiful, trees reproduce and grow rapidly, thrive to maturity quickly on lands which have been cut over, if seed sources and young seedlings are not consumed and the land rendered sterile by forest enemy Number one — FIRE.

Devastated forest areas are usually the result of repeated fire.
