

Student Conduct Basis for Talk by City Superintendent

To dance or not to dance; to smoke or not to smoke; to initiate or not to initiate—these are questions disturbing the minds of local educators and Supt. Corwin freely admits that he does not know the correct answers. At least he so admitted to members of the chamber of commerce at Monday's luncheon when laying the subjects before the group. Unlike the song, "Is You Is, or Is You Ain't Mah Baby," Corwin admits it is his "baby" and that the only known method he can think of for handling the different problems of student conduct is to treat with reason those functions coming under direct supervision rather than take a contradictory viewpoint to the student and thus create disharmony which mitigates against effective school work.

Smoking is not permitted on the school premises the speaker stated. What goes on outside of school hours is beyond the power or authority of school officials to cope with. It is parental responsibility, or shifts to the jurisdiction of city or county officials, in case of violations.

As to dancing, there is divided

opinion, but the superintendent voiced the expression that supervised dances for the young people are far better than turning them loose to run wild at public dances. This viewpoint was concurred in by others.

Touching on the class initiation which has become a regular feature of high school life, Corwin said that there had been some complaint from parents but inasmuch as none of the freshmen were injured or suffered indignities he could see no reason for denying the sophomores their bit of fun.

Corwin was pinch hitting for B. C. Forsythe of Ione who was unable to be present.

Mrs. Lucy Rodgers announced that Dr. Ray Hawk, field man for the Oregon State Teachers' association, will be the speaker Monday, Oct. 2, probably discussing the basic school support constitutional amendment which will be voted upon at the forthcoming general election. Hawk will address a teachers' meeting at the high school at 2:30 Monday afternoon.

MARCH OF TIME: POST-WAR FARMS

From where I sit... by Joe Marsh

Trouble Often Starts at Home

Read the other day where some folks have put up \$100,000 to establish a bureau to combat intolerance and prejudice.

Reckon we all agree that that's a mighty worthy cause. But I wonder if tolerance, like so many other things, doesn't begin at home.

You take a family where Ma objects to hubby's smoking in the parlor; and Pa can't stand his wife's hats; and they both yell at Sis for liking to listen to swing music—and you've got the seeds of trouble! Trouble

that spreads to intolerance among neighbors, and intolerance among nations.

From where I sit, you can put your faith in the family that lives and lets live—where Pa enjoys his smoke and maybe a mellow glass of beer or two; and Ma wears funny looking hats and likes 'em; and Sis grows up as healthfully full of spirits as a child should be.
