PETERSON'S

From where I sit ... *by Joe Marsh*

**Recipe for a
V-Mail Letter**

Read the other day about a G.I. overseas who received an installment notice from the income tax collector. He wrote back: "Over here, even a letter from you is news from home."

A gag, of course—but with an overtone of truth about it. More than anything else, the men like getting letters from home. More than anything else, our V-Mail letters can help to keep up their morale.

What to write about? That's the easiest thing of all. For it's the little things they dream of

and remember! The backyard baseball games . . . the fishing trips . . . the picnics with the chicken sandwiches and ice cold beer.

From where I sit, the least we can do is write those V-Mail letters often—let our men know that those little things they miss so much—from the ball games to the beer—are still here, waiting for them till they come back home.
