## The End Is In Sight

Don't misread the above caption and arrive at a hasty conclusion that the war is about over. What is in mind is that with a little stepping up in the buying of bonds the Sixth War Loan campaign in Morrow county can easily come to a close in a few days. All of us would like to think that the war will not last much longer, but there is a way to advance the great day and that is for the folks at home to make an all-out effort in financing and providing the sinews of war.

There has been little noise made about the Sixth War Loan in this locality. The lone school rally Friday evening gave a great stimulus to buying in other sections of the county and by the first of this week the bond committee was able to report that the goal is in sight. Buying bonds is becoming a habit and it has been somewhat surprising and altogether pleasing the way the subscriptions have piled up in the current drive.

There is a possibility that Morrow county can come out first in the E bond quota. If you plan to buy another bond, do it today and help the war finance committee claim the honor.

## Would Curb Long Office Tenure

Ever since the days of William Howard Taft, who proposed one six-year term for a president of the United States, the question of limiting the presidential tenure has occupied the attention of various groups. In this manner a subject which

comes in for much bitter partisan discussion every four years has been kept alive. In Oregon, discussion of this moot question crystallized into the passing of a resolution at the symposium arranged by Mrs. George T. Gerlinger of Portland on last September 22. The resolution, along with others passed at the meeting, will be presented to the 1945 Oregon legislature as follows: that they memorialize the next Congress to pass an amendment to the Constitution to limit the tenure of office of the President of the United States, of any party, to two terms of four years each for the very good reasons set forth in the resolution. Another resolution asks that they make a careful study of the Electoral College system of electing the President of the United States and that their conclusions if sufficiently unanimous be presented to the next session of Congress, where legislation about this matter is already pending.

A third resolution relates to making a suitable appropriation for statues of two most outstanding Oregon citizens to be placed in Statuary Hall or the Hall of Fame as it is popularly called, in the nation's capitol. Dr. John McLaughlin and Rev. Jason Lee were chosen for this commemorating honor and in 1931 a bill was presented providing for the sum of \$10,000 for statues of them to be placed in Statuary Hall. A recommendation by the ways and means committee that the appropriation be indefinitely postponed was accepted and there the matter has rested. There is a growing demand all over Oregon for suitable recognition of our noble pioneers and the petitions are being eagerly signed.
