Public Warned of Danger in Handling "Dud" Projectiles

Accidents arising out of the unauthorized possession of live ammunition and "dud" projectiles have already caused the death of three children and the serious injury of three others in the Pacific coast area. Too often the harmless appearing souvenir turns out to be a lethal destroyer of the innocent, warns the Oregon State Defense council.

Persons discovering "duds" or un-

exploded projectiles of any kind should leave them alone and report such discovery immediately by telephone to the nearest military or civil authorities.

Chief Bill Morgan has garnered approximately 50 rounds of ammunition from youths who have picked it up on the bombing field. Any of the material mentioned herein, when found, should be turned over to the sheriff or the police.

"WE'D RATHER SAY YES"

We don't like to tell people that they'll have to wait to get a home telephone. We'd much rather say "yes" to requests for service. That's the way it used to be.

But the needs of war have first claim on available telephone equipment and on telephone manufacturing facilities and manpower. Delays in filling civilian orders just can't be helped.

All of us telephone people sincerely appreciate the co-operative understanding being shown by the many thousands who are waiting their turn to get service.
