ONE OF THE BEST friends a man can have both these days *and* after the war, is a nice little piece of paper.

A crisp green-and-white paper that 10 years hence is going to bring in an extra dollar for every three you put in now.

A piece of paper that can help bring you comfort, peace of mind, security. *A War Bond.*

That's why, when times are good, and you're making a little extra money, you should collect as many of those pieces of paper as you possibly can. Common sense will tell you that you *can't* collect too many.

So buy War Bonds. Keep on buying more and more War Bonds. Hang onto them—don't be tempted to cash them in. For after the war you'll have some mighty fine friends in your fistful of War Bonds!
