

### P-TA Told Home Security Safeguard To Nation's Future

Stressing the objects of the organization, Mrs. C. G. Davis of The Dalles, regional vice president of the Oregon Parent-Teachers association, told the Heppner chapter that home security is essential to the future stability of the nation. Mrs. Davis was guest speaker at the Founders day program given in the music room of the school and made several observations relative to education of the child.

Every parent should make a secure home because children need this sense of security; a musical education of some kind is needed in every school and in every child's life; juvenile delinquency is due to the great numbers of youthful workers below the age of 18 and because of the many mothers in war work, and she explained how the P-TA is caring for these children; recreation should be developed so that when our soldiers come home they will have something to help them while they are adjusting themselves to routine life; spiritual education is a necessity for all—these and other points highlighted the speaker's talk. She also emphasized the fact that school property belongs, not to the school boards, but to the taxpayers and that these buildings should always be available to the community.
