

Reforestation and County Hospital Are Grange Topics

Willows grange was host last Saturday evening to Lexington and Rhea Creek granges with a no-host lunch served in the late evening.

The third and fourth degrees were exemplified by Willows officers to candidates from Lexington and the home lodge. Tableaux added to the beauty and charm of the degrees and the new lights were greatly appreciated by the tableau committee.

Orville Cutsforth explained the timber situation in Morrow county and the plan for reforestation.

Of much interest to all present was the talk given by Dr. McMurdo on the Morrow county hospital and report of the committee in its first survey and recommendations. Orville Cutsforth made some timely suggestions regarding the financing of construction of a suitable hospital building. Every one is interested in seeing the construction off to an early start while the finances of the county are at high peak. The hospital project brought out some lively discussion during the evening.

Following the meeting members and guests repaired to the dining room where a social hour was enjoyed.

The secretary wishes to take this opportunity to thank each member who has so promptly and generously taken care of their grange dues. A few more are out standing but we have faith in our members that all will help Willows grange reach its goal "all dues paid in full before March 31."

County Deputy Henry Baker announced the Pomona meeting for Rhea Creek on April 7 to convene at 10:00 a. m. Mr. Baker urged all members both old and new, to attend if possible.

Mary Lundell, Secretary.

ENTERTAINS FOR VISITOR

Mrs. J. A. Troedson of Heppner gave a party last Friday honoring Mrs. Paul Smouse, who has been visiting relatives near Ione.

Those present were: Mr. and Mrs. O. E. Lindstrom, Mrs. Mary Swanson, Mrs. C. W. Swanson, Mrs. Minnie Forbes, Mrs. Anne Smouse, Miss Shirley Smouse and Mrs. Paul Smouse.

CARD OF THANKS

We wish to thank our many friends for their kind expressions of sympathy and the beautiful floral offerings during our bereavement in the loss of our dear Mother. The Peterson family

"We've been getting a 'Baker's Dozen' from PP&L since 1910"

says Edward C. Pease, Pres. and Mgr., Department Store, The Dalles, Oregon

"Ever since Pacific Power & Light Company came to The Dalles 35 years ago, we have been getting more electricity for less money each year, and, in addition to that, the extra services that help us use it to the best advantage. For instance, when we installed complete new lighting fixtures to improve our store, a PP&L lighting expert helped us figure our requirements and helped us select store lights that are giving us far more light for less money. But more important still is PP&L's 35-year record of continuously reducing the price of electricity through good business

management. In the past fifteen years alone, the cost of lighting our store has been reduced nearly one-third."

The Edward C. Pease Co., Inc., department store is one of the oldest mercantile establishments east of the Cascades. Mr. Pease has been a resident of The Dalles and in the mercantile business since 1884. One of the first users of electricity in The Dalles, Mr. Pease tells of the early days when his store was lighted with coal oil lamps, and when The Dalles was a shipping point and trading center for all the central Oregon country as far south as Lakeview; when ten-horse teams hauled wool to The Dalles for shipment by rail or boat, and returned to the inland country with wagonloads of groceries and supplies, often taking a month for the round trip. Mr. Pease has a well-electrified home in The Dalles now, but says his light bill is one of the smallest items of household expense.
