**The Cuppers Have a Dream Come True**

Dee and Jane Cuppers used to say that as soon as the children had flown the roost, they were going off together on a second honeymoon... take a trip... or rent an apartment in the city.

So after little Sue got married, I stopped in to say goodbye. Dee was sitting in his favorite chair before the fire, sipping a mellow glass of beer. And Jane was busy with her knitting just as always. They looked as restless as the tabby cat on the hearth.

"Jane and I figured," Dee explained, "that you couldn't beat

being at home alone together, with our own things—talking and reading—enjoying my glass of beer, and Jane her buttermilk—living and letting live. I guess you can't beat home!"

From where I sit, Dee's had a better dream come true—the dream of peace and tolerance and understanding that we all are fighting for, and praying for, today.

**So the city folks have done it! Well, WATCH OUR SPEED!**

WORD comes from Washington that the fat-salvage problem has got to be licked in the small cities, the towns and on the farms.

We women have to save enough used fats in our kitchens to help make munitions, medicines, fabrics, soap for military and civilian use, and many other essentials.

The job, to date, has been done largely by city people, because arrangements for collecting the fats were made in the cities first. And these city folks are turning in more than twelve million pounds a month!

Now we're called on. And will the women on the farms and in the towns and small cities break that record?

Don't worry—just watch our speed.

**HOW TO DO IT:** Save all used fats in a tin can. Keep it handy to the stove. Scrape your broilers and roasting pans, skim soups and gravies, for every drop counts. Keep solid pieces of fat, as meat trimmings and table scraps, in a bowl.

Melt down once a week when your oven's going, add the liquid fat to the salvage can.

Take the can to your butcher as soon as it's full. He will give you two red points and up to four cents for every pound. If you have any difficulty, call your County Agent or Home Demonstration Agent. This message is approved by WFA and OPA, and paid for by Industry.

100,000,000 More Pounds Of Used Fats Are Needed This Year!
