

### 35th Anniversary Of Power Company Observed Friday

Members of the Pacific Power & Light company organization from Heppner, Hermiston and Pendleton reviewed 35 years of progress in the electric industry at a meeting in Pendleton Friday that observed the 35th anniversary of the founding of the company and honored veteran P. P. & L. employees.

Present for the occasion were George T. Bragg, P. P. & L. vice president and general manager, and Charles M. Sanford, assistant general manager of the company.

Telling the development of electric power in this area by the company, Bragg compared the present integrated Pacific Power & Light company system, with its 4600 miles of electric lines, to the 388 miles of poles and wire with which the company began business in 1910.

An early accomplishment was supplying 24 hours a day electric service, Bragg recalled.

Where electricity from small, inefficient systems once sold for as high as 25 cents a kilowatt-hour, 35 years of electrical progress here by the company have brought rates so low that Pacific Power & Light company now received an average price of only 1.86 cents per kilowatt-hour for residential electric service, Bragg pointed out. Electric rates here are now 66 per cent below the average for the nation.

Where in 1910, electric service rarely extended beyond the larger towns, the company's lines today serve the agricultural territory of 21 Washington and Oregon counties, and supply electricity to more than 13,000 farms.

Twelve members of the organization serving the company's customers in Umatilla and Morrow counties have each had more than 10 years in the electric industry, and five have had more than 15 years. Included in the group with more than 15 years experience with the P. P. & L. organization is Kenneth

House, company manager at Heppner.

### Cherry Season Time For Favorite Recipes

Cherries are ripe now and that is good news to those who like this luscious fruit. They are here today—gone tomorrow—and their short season is one that is contemplated and should be relished by everyone.

Cherries lend themselves to almost any recipe that calls for fresh fruit. Cherry cobbler topped with ice cream is one of the delicious deserts that can be made with cherries. Cherry juice, sweetened and thickened slightly with corn starch, makes a delicious sirup and combines nicely with milk for a refreshing drink, or can be used as a sauce on ice cream or puddings.

And there are few pies that compare with cherry pie. The upper-crust school of pie makers will make two crusts, upper as well as lower. The open-face devotees will make twisted lattice top or will cut out shapes to ornament the top of the pie and leave the cherries gleaming in their red juice to charm the eye and tempt the appetite. For something new about cherry pie—add a dash of cinnamon in the filling.

This recipe will be a favorite. The trick's in cooking the syrup before hand.

#### RED CHERRY PIE

½ cup cherry juice 2 Tbl butter  
½ cup sugar 2 cups pitted cherries  
3 Tbl flour, 1-8 tsp salt, 1 recipe plain pastry, 1-8 tsp cinnamon, (optional.)

Cook juice, sugar, flour and salt until thick; add butter and pour over cherries in pastry-lined pie pan. Make twisted lattice top or any topping you prefer. Bake in hot oven (450) 10 minutes, then in moderate oven (350) 30 minutes. Makes 9-inch pie. Serve a la mode!

This one egg cake recipe can be made on top of pitted sweetened cherries to make an up-side down cake. Serve with vanilla ice cream.

1½ cups cake flour, ¼ cup butter, 2 tsp baking powder, 2-3 cup sugar, ¼ tsp salt, 1 well beaten egg, ½ cup milk, ½ tsp almond extract.

Sift dry ingredients three times; add softened butter. Add egg combined with milk and flavoring and beat vigorously one minute. Bake in a greased pan in moderate oven (350) 40 minutes.

#### BAG LIMITS TO BE SET AT HEARING JULY 14

The 1945 hunting seasons, bag limits and other regulations affecting large and small game will come

### SHE'LL RULE ROUND-UP

Pendleton, June 18—Skilled horsewoman, and a descendant of Eastern Oregon pioneers, golden-haired, blue-eyed Donne Boylen has been chosen as queen of the thirty-fourth Pendleton Round-Up Sept. 12, 13, 14, and 15.

Now 19, Queen Donne was a Round-Up princess last year. She is the daughter of Mr. and Mrs. E. N. Boylen of Pendleton, her father a prominent rancher, being arena director of the Round-Up, in which he has been active since boyhood days. He is also vice-president of the Rodeo Association of America. She is the granddaughter of Mrs. Thomas Boylen, Sr. of Pendleton, and the late Mr. Boylen, for many years timer at the show, and of the late Mr. and Mrs. G. M. Morrison, both families being well known pioneers.

The queen, native of Pendleton, has completed her first year at the University of Oregon where she is a member of Gamma Phi Beta. Donne is a real "ranch girl"; last year she acted as roustabout on the ranch of her uncle, Lester King, who is also a Round-Up director. The previous year, she and her aunt, Mrs. King, did all the cooking for a crew of 15 men. Besides taking pride in being an honest-to-goodness cook, the queen is interested in writing, dramatics, swimming and dancing.

Queen Donne will head all Round-Up parades and also appear in the arena at the Round-Up, and with her will be a court of four princesses, to be announced later.

up for consideration when the Oregon State Game commission holds its annual hearing for this purpose at ten o'clock, Saturday morning, July 14, at its Portland offices.

Until the regulations are formulated by the Commission there is no information available as to whether or not special doe deer or cow elk tags will be issued this year.

The hearing is open to the gen-

eral public.

#### TICKETS WILL BE MAILED AS SOON AS THEY ARRIVE

Truck owners who are waiting for the new gasoline tickets are advised that they will be mailed as soon as a new supply arrives at the local rationing office.

Fuel tickets for homes have not been mailed but will be put out next month.

● On hot summer days the water in your battery evaporates faster than usual. This is a dangerous condition. If water is not replaced acid may permanently damage the plates and separators. Play safe . . . let us give your thirsty battery a drink now!
