

CLASS 2 SLAUGHTERERS MAY INCREASE QUOTA

Any class 2 slaughterer who desires to kill more than his present quota allows may now secure additional quota upon application to the OPA district office in Portland. The only prerequisite is that such slaughterers be registered with OPA as required by OPA control order No. 1.

This action has been taken to permit increased kill of lambs during the western Oregon lamb marketing period, say agricultural leaders who have been urging relief from the congested lamb situation in western Oregon.

It is suggested that slaughterers limit their kill to available and known outlets to prevent pile up

of meat. If lambs back up in producers' hands, OPA is expected to take further action to relieve the situation.
