DON'T "BOMB" OUR FORESTS

**Lighted Matches
are Incendiaries in the Woods**

YOU might as well invite Hitler or Hirohito to bomb our forests as to drop a burning match or cigarette in the woods.

Like tinder during dry weather, the woods are ready to burst into flame from the merest spark. More than a fifth of our destructive forest fires are started by careless smokers.

Perhaps it is more important to protect cutover lands, where new seedlings are starting, than to safeguard stands of old-growth timber. . . for the seedlings of today are the forest crops of tomorrow.
