would prevent inflation. As written by congress it is all right. The trouble lies, and I think you will agree with me, in the administration of the OPA. When I say administration I am referring to the fellows up in Washington. There are some misfits in high places in OPA and they are the boys who cause most of the trouble. The people at home, the ones who serve you, have done a fine job and my

hat is off to those who have given their time in helping to make the agency more effective.

Mr. Stockman paid high tribute to President Harry Truman. The president is highly regarded in Congress by both democratic and republican senators and representatives. The speaker lauded the president's cabinet selections and feels that Mr. Truman is on the right track to a successful administration.

The congressman agreed with Mayor Carter that the communities

should handle their own problems as far as possible. If this is done there will be less call for government spending, he declared.

C. L. Hodge was program chairman and responsible for obtaining two speakers for the luncheon. He will have charge of next Monday's program.

YOUTH PICKED UP ON PHONY CHECK COUNT

Gene Paul Germaine was picked up by police authorities Friday on a charge of obtaining money under

false pretenses. Young Germaine, whose home is near Echo, was reported to have issued a check to which he signed another party's name. He apparently had spent his wages and needed a little more money to get along on and chose the check method as the quickest way to get it.

He was haled before Justice J. O. Hager who in turn placed him in charge of the juvenile court. Judge Bert Johnson lectured him soundly and released him on probation.
