WORD OF APPRECIATION

I wish to thank my many friends for their words of cheer and for the many beautiful flowers sent me during my recent illness.

Mrs. Scott Furlong

A WORD OF THANKS

I wish to thank the volunteer fire department and neighbors who rushed to my assistance Tuesday and prevented a grass fire from spreading. This ready response no doubt prevented serious damage to my property and that of my neighbors. The fire department is worthy of special commendation for the manner in which it responds to calls.

THAT'S no way to treat a friend . . . and we never had a better friend than our forests.

Forests give us homes. They furnish them. They warm them. They give us paper products and textiles. They give us plastics and chemicals. They even can give us food.

Much as we value forests, we cause more than 20,000 forest fires a year simply by tossing away lighted cigarettes and matches. A moment's thought would save millions of dollars of loss. You can help grow trees for tomorrow by making certain that you are never the cause of a forest fire.
