PP&L's NEW LOW ELECTRIC RATES NOW IN EFFECT!

Starting with meter readings taken on and after August 22

THE LARGEST ELECTRIC RATE REDUCTION in Pacific Power & Light Company's history went into effect on August 22. This \$1,000,000 system-wide rate slash now makes your electric service a greater value than ever!

Your taxpaying, business-managed power system has reduced the price of electricity again and again since it started out in business back in 1910. It has cut rates *five times* in the past 9 years alone.

This record of American business progress really means something! It was established by a company that shares your tax burden, pays its own way, and gets no "free ride" at public expense. Low-cost PP&L electricity is today's biggest bargain.
