From where I sit... *by Joe Marsh*

**Lawn Mowers—  
Prewar Versus Postwar**

Will Curry isn't falling for those pictures of a postwar life of ease. He was sweating over his lawn mower the other day, when somebody shows him pictures of a mower that runs under its own power.

"Shucks," says Will, "I like a lawn mower that gives you some backtalk and exercise. It gets the old blood circulating and works up a wonderful thirst."

"Then," Will adds with zest, "there's nothing in the whole world that tastes as good as a cheerful glass of beer!"

From where I sit, there's a lot of good sense in what Will says. A little honest effort never hurt anybody. And there should be more to our post-war plans than how to make life comfortable and easy.

Outdoor work—work you do with your hands and your back—ought to be part of everybody's post-war plans. And on a hot day, as Will says, there's always that sparkling glass of beer as a reward!

*Don't Burn up Your*  
**PAY ENVELOPE**

TREES FURNISH employment for many members of this community. Some work in the forests . . . others in the mills, processing the timber crop . . . other citizens rely for their livelihood on the trade furnished by the people employed by the forest products industries.

Burning trees hurt all of us. A blaze which consumes growing timber may destroy the pay envelope of every member of the community. Burned trees create no trade or employment.

Help keep fire out of the woods. If we work together we can lick Forest Enemy Number 1.
