Mrs. Lockard was a sister of Mrs. Hanson Hughes of Heppner who had been with her for some time. She is survived by the husband, eighters and one son, and two brothers and three sisters.

Beware of the Common Cold!

Check it early. What may appear to be a slight cold may develop into something serious if not attended to promptly. And besides, a cold is such a nuisance!

'AN OUNCE OF PREVENTION--'

Begin now to fortify yourself against the common cold so prevalent in fall weather.

Vitamins are an enemy of colds. They build up body resistance, making you less susceptible to sudden changes. Keep a supply on hand and take them regularly.

FOR PREVENTIVE MEASURE—VACAGEN, an oral vaccine.

FOR COLD RELIEF—Cough syrups and inhalers.

Remember—we have anything you need to prevent or cure a cold.

From where I sit... by Joe Marsh

Andy Botkin has a hobby

Andy Botkin, tavern keeper at the Garden Cafe, has a hobby. It's writing to all the service men who used to make his place a sort of club.

And do they appreciate it! One of them sent him a German combat helmet; another, a Jap flag. He's got pictures and coins and souvenirs of all kinds on the wall—mementos with "To Andy" written on them.

And he showed me the letters that he's got back... from homesick privates to reminiscent colonels. Letters about home and

Main Street and the Garden Cafe... from men who remember listening to football scores on Andy's radio, sharing a mild glass of beer with friends...

From where I sit, Andy's doing a one-man job of boosting morale. Andy's spotless tavern, with its decent, homelike surroundings, is doing a job on the home front, too... in promoting moderation and wholesome relaxation.

A good time is assured everybody and your money will be spent in a worthy cause.

Rhea Creek Grange Hall

Admission 50c; tax 10c total 60c

Maintaining a railroad's track and roadbed in A-1 condition requires the services of a large number of construction crews. Hard workers—these men require plenty of wholesome food at regular mealtime intervals. But, being constantly on the move they are frequently many miles distant from a city or town.

To meet this situation, Union Pacific provides two "outfit cars" for each construction crew. In one of these cars there is a dining room, kitchen, and storage space for food... a rolling restaurant. The other car is converted into comfortable living quarters

for the manager whose chief occupation is the preparation of meals.

There are a thousand of these outfit-car managers—fifty of them women. They find a deep satisfaction in their culinary ability to provide tasty, well-balanced meals... and in keeping their home-on-wheels spic and span.

Needless to say, the ringing of the dinner bell is a welcome sound to the construction crews who are doing their part to speed vital freight, and the armed forces, over the Union Pacific Strategic Middle Route, uniting the East with the Pacific Coast.
