Bright Future

Farms makers of ice cream, along with the two concerns mentioned prefer dextrose as a sweetening and demanded it even at 10 cents per pound. Orders amounting to 3,000 carloads or more have been rejected, mostly from Arden Farms.

"There's a profit in this syrup business," Cutsforth declared. "This profit is found not only in the glucose syrup but in a great side-line of by-products. It is estimated that there is \$50,000 net profit in \$100,000 worth of business. Wheat is purchased from co-operators at the rate of \$1.52 per bushel basis Nov. 1. Since the plant is strictly a co-operative more than 50 percent of

the business must be done with co-operators who are permitted to sell two bushels of wheat at the plant for every \$1 worth of stock owned. It all sounds like possibly a "pipe dream", but we must remember that there is a secret formula involved and royalties must be paid to one Herman Liepsig, the holder. He is a German Jew who escaped from Germany to Canada a few years ago and later came to Washington."

Henry Baker spoke of progress in the REA movement, stating that

the prospect is bright for more in the near future. The local district has been placed in the Walla Walla REA jurisdiction.

Sam Hunter of Milton announced a general meeting to be held in the county Oct. 24 at which time Harry L. Bryson, national Farm Bureau Federation organizer, will be the speaker. Hunter also called attention to the forthcoming state convention Nov. 8, 9, 10 to be held at the Columbia Gorge hotel at Hood River, urging that reservations be made at once.

From where I sit ... by Joe Marsh

Americans have a word for it

Bill Larkin's boy, who's back from overseas for good, was telling us about the funny customs and the different languages of European countries.

One thing he noticed is that in so many of those countries there is no word for "home." "House," yes ... or "building." But no name that stands for what we mean when we say home.

"In spite of the fact," says Bill, "that it's the most important thing there is ... a place where you can take your shoes

off and let down your hair ... enjoy a glass of beer before the fire and relax with folks you love!"

From where I sit, that may be an important difference between this country and some others. The conception of home as a place of tolerance and sacred loyalties—where differences of habit and opinion giving way before love and understanding! Yes, we Americans have a name for it!
