

Explosives Act Being Liquidated

Another war agency is going into the discard with the closing of the federal explosive act. Word to that effect was received the first of the week by C. W. Barlow who served as licensing agent in Morrow county during the period 1941-1945.

Accompanying the notification that his services are no longer required was a certificate of appreciation from the administrator of the federal explosives act and a letter commending Mr. Barlow for his faithful performance of duty throughout this period of service. All agents have been requested to retain records and unused supplies until full administration of the act is finally terminated. In the meantime, those heretofore securing licenses through the county clerk are advised that such procedure is no longer necessary.

SEIT REPORT FOR MORROW COUNTY COMMITTEE BLUE MT

By Mrs. Ralph Thompson

Our check for this month covered the request for magazines for one ramp, phone calls for incoming patients, phone call at monthly birthday party, Mrs. Reser's account which provides so many pleasures for patients, food at ward parties, patients in closed wards, this a gift from Willows grange, and a new request for funds to repair radios, record players and

bicycles.

Special gifts sent during the month were grapes and cokes from Mrs. Sara McNamer in the Elk's ward; bridge prizes from Mrs. R. I. Thompson for our ward; prizes for three other parties, six packages of current magazines.

At this time patients are being sent home who will spend most of their lives in wheel chairs. As the government does not supply these chairs the Central Labor Council at Pasco bought the folding type of chair, the council to supply the necessary equipment to make them comfortable and to fit the individual needs of the patient. Most of these men are in our wards and we gave \$150 towards this project. The chair is fitted much the same as a suit of clothes with each measurement taken carefully.

The chairman of the Morrow county committee of the council wishes to give special thanks to Mrs. Earl Gilliam who has been in charge of the finance committee, to all those who solicited funds and to the many who gave so generously. Such response makes it possible to help with requests as they come in at council meeting. I promise you your gifts will provide pleasures and comforts JOE would not otherwise receive. I also promise to have a complete account of the way this money has been used at the end of our year, May 31, 1946.

Star Reporter

FRIDAY-SATURDAY, OCTOBER 26-27

WITHIN THESE WALLS

Thomas Mitchell, Mary Anderson, Edward Ryan
A father and son drama with excellent performances.
