Chevrolets to Be On Display Soon

C. L. Hodge, Chevrolet dealer at Heppner returned from Portland Wednesday where he attended a preview of the new 1945 Chevrolet at the company's zone headquarters.

He was reluctant to discuss the mechanical and style features of the new car but by his eager attitude it was apparent that he expected the formal announcement and public showing of the car to be at an early date.

Following the same policy as in former years, the new Chevrolet will be on display simultaneously in dealers' showrooms throughout the country. Radio and local newspaper announcements will be made, telling when prospective customers may see the new car for the first time. These announcements are expected to be good news to motorists and to dealers alike.

Throughout the war period, car

owners have been forced to get along with their old automobiles. At the same time dealers have expended every effort to service these cars, and to keep them rolling for the duration.

Mr. Hodge stressed car care, with the warning that motorists should not expect the 1945 Chevrolet to be available in great quantities immediately. The supply to dealers will increase as production in the Chevrolet plants permits.

John Fuiten has recently been discharged from service and has joined his family here. Johnny has not yet decided whether he will resume his position as sheriff pro tem or enter another line of work.

From where I sit... by Joe Marsh

"There ought to be a law!"

Every now and then, when I run out of news for the *Clarion*, I print items about what happened Fifty Years Ago in Our Town. May be a lazy man's way of filling space, but it often makes mighty interesting reading.

Seems like human nature is always repeating itself. Same old prejudices, bickerings, and mistakes. Here's an 1895 politician trying to restrict free speech... a demagogue crying out against women's rights... a local com-

mittee raising the bugaboo of Prohibition.

Same old cry down through the years: "There ought to be a law!" Same old desire of one group to force its opinions on another.

From where I sit, it's not more laws we need—nor more restrictions of our right to think, and choose, and live as we see fit. But more tolerance and understanding—more "live-and-let-live" among human kind.
