Care of Furniture, Sewing Machine to Be Demonstrated

Touch-ups for wood furniture and care of the sewing machine are two demonstrations to be given in November by Miss Grace Gadeken, emergency assistant for Morrow county. The first one is a demonstration designed to give the homemaker help in preserving what furniture she has until the time she can invest in new or until more of good quality is available. Most homemakers can, with imagination, initiative and effort improve the appearance of the present furniture and add to its life through care, repair and refinishing.

Care and adjustment of the sewing machine will be conducted as a sewing machine clinic. Women who want help will bring the machines to a central place where group and individual instruction will be given on cleaning, oiling and adjusting. A sewing machine will last from 50 to 60 years with periodic cleaning and occasional adjusting.

Mrs. Myrtle Carter, home demonstration agent at large, will be in Morrow county two days to assist Miss Gadeken with the sewing machine clinic at Boardman Nov. 8 and the furniture demonstration at Lena Nov. 9. Dates for other meetings during the month will be announced later.
