 From where I sit ... *by Joe Marsh*
Factory versus Farm: A Draw
 Mel Bates and Jud Polk were arguing the other day about the factory versus the farm. Jud has a job in the tool works and Mel grows the best corn in the county.
 "Where would you farmers be," Jud says, "if it weren't for the factories that make your plows and tractors?"
 "And where would you factory workers be," says Mel, "unless we farmers grew the food that keeps you going?"
 Well, they called it a draw, and made peace over a glass of beer, "brewed from golden farmer's grain," allows Jud, "... and bottled and kept wholesome by the ingenuity of industry," Mel adds politely.
 From where I sit, we may have different occupations, different standards, different opinions ... but we're all necessary to one another. And the more we skip the differences, and stress the bigger issues of co-operation, tolerance, and understanding ... the closer we are to a better world.
