THE OLD JUDGE SAYS...

STEVE: "How was the hospital dinner, Judge? Sorry I couldn't get there."

OLD JUDGE: "Very interesting, Steve. One of the doctors on the staff read a paper on the research work that is going on at one of the big universities where they are studying chronic alcoholism."

STEVE: "I'd like to have heard that, Judge."

OLD JUDGE: "He pointed out that approximately 95% of the people who drink do so sensibly. Only 5% abuse the privilege oc-

asionally and included in that 5% is the very small number known as alcoholics. Then he quoted a doctor from a famous university who said 'Alcoholics are sick persons and, if treated as such, may be cured.' Alcoholism, he said, is *not caused* by alcohol but by deep-rooted emotional derailments which can be prevented by education and often cured through modern psychology!"

STEVE: "That's the most sensible approach to the problem I've heard."
