

**Church, Parsonage  
Lost When Fire  
Strikes at Irrigon**

Fire starting near the furnace destroyed the church and parsonage of the Assembly of God Saturday morning. Rev. A. B. Turner started the fire in the furnace just before noon. He was called to the parsonage for lunch. In a short time they discovered smoke coming out of the windows. Upon opening the church it was so filled with smoke they could not rescue any of the musical instruments. There was some water but it was all used up in a short time. The Ordnance fire truck arrived with 500 gallons of water but did not seem to help for by this time the parsonage was on fire. The neighbors succeeded in saving the furniture stoves and the Turner clothes. The family were taken to the Russell McCoy house. As this is rented to a family who will soon take possession the Turners are looking for living quarters while Mr. Turner is fixing the garage at the parsonage.

The citizens of Irrigon and vicinity had a fire meeting in the school house Monday evening with Virgil Sparks as chairman. They voted an assessment of \$10 per family and \$25.00 per business house to make a start towards a fire truck. There will be another meeting Jan. 22.

**FOR YOUR CAR...**

Each week in this space we will list something which car owners need. We will try to make it a service to you by staying with the current needs and reporting them to you.

What with inventory this last week we discovered that we have a few hard-to-get items that you might want for your car. If your auto horn is on the blink we have an assortment that would interest you, whether you want a single "beep" horn or a concert orchestra for your warning signal.

Also we have a small assortment of seat covers, which as you may know are rather hard to find.

Both of these items are being sold at reduced prices in order to clear our stock. If you need any of either, stop by and we will be glad to show you what we have.

**THE OLD JUDGE SAYS...**

**HARRY:** "I don't know what they'll weigh up, Judge, but my cattle and poultry sure have been gettin' fatter since I started to use distillers' dried grains in their ration."

**OLD JUDGE:** "You're about the tenth one who has told me that, Harry. How do you account for it?"

**HARRY:** "The by-product recovered from grains used by distillers is very high in vitamin and protein content. It's the best feed supplement we can get to balance the rations we feed our dairy cows, livestock and poultry. Mixed with original grain, these dis-

tillers' dried grains have a much greater feeding value than the original grain has."

**OLD JUDGE:** "Have any trouble getting all you need?"

**HARRY:** "Yes, at times, even though the distillers produced 1,200,000,000 pounds of it for the year endin' last June. I hope they'll be in a position to produce a lot more next year."

**OLD JUDGE:** "Then I guess nobody can tell you grain is wasted in distilling."

**HARRY:** "Not me, Judge... I know."
