Good Health Is Our Most Prized Possession

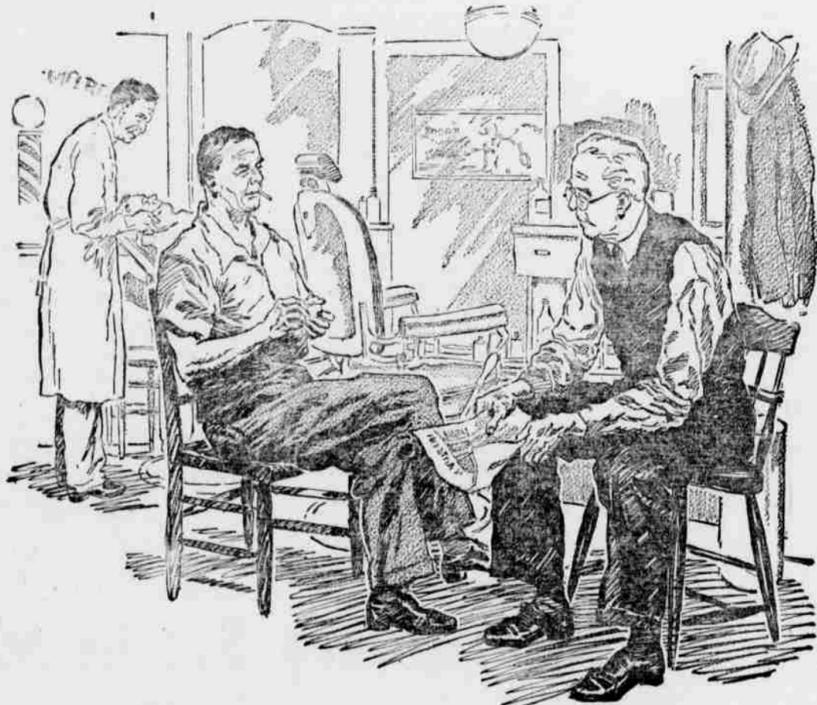

To maintain and protect our health is a duty we owe to ourselves, our families and those with whom we are associated.

An essential to recovering good health is properly compounded prescriptions . . . Only the best ingredients and skillful preparation are acceptable in the medicine your physician prescribes.

We pride ourselves that we meet all these requirements in our Prescription Department.

THE OLD JUDGE SAYS...

HENRY: "I've heard that same thing several times lately . . . that alcoholics are really sick people. It was news to me. Do you agree with that statement, Judge?"

OLD JUDGE: "Yes, it's true, Henry. It's no notion of mine . . . it's a statement made by scientists who have studied the subject."

HENRY: "What did they find out, Judge?"

OLD JUDGE: "Well, as a result of their medical research, they found out that approximately 95% of the people who drink, drink sensibly. 5% do so unwisely, at times.

Included in that 5% is the small percentage known as alcoholics."

HENRY: "But why are they called sick people?"

OLD JUDGE: "Because it has been discovered that, in many cases, excessive drinking is a symptom of some physical or emotional maladjustment . . . not the cause of it."

HENRY: "Now I understand it, Judge. I am glad to hear of the modern approach to this problem and that so much is really being done to help these folks."
