**Grangers Grow Social Crops that benefit all Oregonians**

OREGON STATE COLLEGE stands as a monument to the early members of the Grange. Largely through their efforts the College was founded in 1885.

Further achievements in better farm living through education include sponsorship of agriculture and home economics courses in high schools; cooperation with the Future Farmers of America, the 4-H Clubs of the State; scholarships to the 4-H Club Summer School sessions held annually at Oregon State College.

Projects of this nature are as vital a part of Grange activities as better agriculture itself. That is why 28,000 progressive farmers belong to the Oregon State Grange—why membership continues to grow—why the Grange is a dominant force for social progress.

Information about the purpose and accomplishments of the Oregon State Grange is contained in a booklet "Let's Look at the Record". Contact your local Grange for copy, or write direct.

**THE OLD JUDGE SAYS.**

**TED:** "Clem and I were wonderin' what you thought of that new movie about the chronic alcoholic, Judge. Understand you saw it before we did."

**OLD JUDGE:** "Well...it's true most of us never see a case as extreme as that in real life because they are so few and far between. But it does point out one thing... chronic alcoholics are abnormal people and we've got to change our ideas about how to help them."

**CLEM:** "In what way, Judge?"

**OLD JUDGE:** "We've got to realize that excessive drinkers are suffering from more than a craving for alcohol. According to

psychiatrists and medical men at one of our great universities, the alcoholic is a sick person. The study of hundreds of cases shows he is suffering from some physical, social or emotional condition...just as in the case of that poor chap in the picture. Fortunately, they represent only a very small percentage of those who drink."

**TED:** "Is anything being done to really help these folks, Judge?"

**OLD JUDGE:** "Yes... a great deal in clinics throughout the country. And with the cooperation of the beverage distillers who sincerely want their product used only in moderation."
