GAS AND AIR

FIDELIS UNREIN, Editor

Howdy Folks: Heat will allay pain, in many instances, according to a doctor's statement, but getting hot under the collar won't lessen a pain in the neck.

On the other hand, sitting in front of an electric fan is a good way to blow your top.

Of course, some men are obsessed with the idea that they can keep fit by throwing one.

We heard about another medical theory that claims a man is shorter at night than in the morning.

We have never tried this theory out but we have noticed a tendency to be short at the end of the month.

WORD OF APPRECIATION
To the neighbors and friends

who came to our assistance when fire threatened our home last week we wish to express our heartfelt thanks.

A WORD OF THANKS

We wish to take this means of expressing our appreciation and thanks to the Heppner Fire Department and the others who so efficiently assisted in checking our building fire last week. Quick action by those discovering the fire, immediate response by the fire department and the very efficient use of water reduced the loss to a very minimum. We feel very fortunate that the loss was confined to such a small area and that water damage was practically nil. Our sincere thanks to all those who helped make this possible.

Wait For The Better Known Brands!

Production in many lines is stymied at present due to strikes and labor tie-ups.

There is a shortage in most nationally advertised brands . . . But don't buy the first article you see—it may be put out by a house which will not survive long, making part replacements difficult or impossible to get.

Wait and buy only the well known nationally advertised name brands which have stood the test of time. Sooner or later they will be back on the market with their guarantees and unlimited numbers of satisfied customers back of them.

Our town has a Housing Shortage

Yes, sir, there's a real housing shortage in our town, as I guess there is in yours, too.

Kefer Cole, for instance, is sharing his home with a brother-in-law from Connecticut. Six children and a dog in one family; four children and three cats in the other.

I asked Kefer how they got along together—especially the grown-ups. Didn't they get a little edgy from the noise and crowding?

Kefer looks at me with a twinkle. "Sure," he says. "And when

that happens, Sara and I just pass around four sparkling glasses of good beer . . . and that reminds everybody that there are still a lot of friendly, gracious pleasures that can help us make the best of things."

From where I sit, it's great to be able to relax during this strain of postwar living with a beverage that's truly moderate and wholesome, truly friendly.
