THE SMART FAMILY

The other day John Smart waited for me in the courtroom before going to lunch together. It was a divorce trial. John asked me a pungent question. "Judge," says John while we were having lunch, "have you ever had a milk shake bob up in divorce proceedings?" "No, can't say that I've ever heard of milk shakes or any other soft drink appearing in court—but there's plenty of times that alcoholic beverages have appeared as a cause that leads to broken-up families—and many times to broken-up youngsters... who are indeed the innocent victims of parental delinquency."

THE SMART FAMILY NEITHER NEEDS NOR DESIRES ALCOHOLIC BEVERAGES for FUN

200,000 miles of new long distance circuits will be built in 1946

Big expansion program under way to speed your calls

This year alone, as part of a \$400,000,000 five-year expansion program, more than 200,000 miles of new toll and long distance circuits are planned for the Pacific Coast.

For we're on our way to providing a broader and faster long distance service than you have ever had before.

Everything possible is being done to expand long distance facilities now and to prepare the way for many new improvements to come. We handled more than 346 million toll and long distance calls in 1945—nearly a million a day—and we're gearing up to handle an ever-increasing volume as the West continues to grow through the years to come.
