Howdy Folks: One of our customers remarked that in some parts of India a man doesn't know his wife until after he's married her. But why single out India?

In China it is reported that a man can get a wife for five dollars, but then a good wife should be worth that much.

While we are discussing marital situations over the globe, a magazine states that in Persia a wife is required to know how to comb wool for her husband.

Some folks prefer to stay single—others prefer to knot.

Our neighbor says he heard of one marriage that reminded him of a house. She was painted and he was plastered.

We would like to remind you that now is a good time to buy Auto-lite, Goodyear or Willard Batteries. Come in and see us about it any time.
