THE SMART FAMILY

THESE YOUNG FOLKS certainly have a direct way of asking questions. Take Jane Smart, for instance. The other day she said, "Doctor, a group of us were discussing alcoholism. Some folks are claiming long and loud that it is a disease." "Right, Jane," says I. "Now with all other diseases, research tries to discover the source, and destroy that source, doesn't it?" "Right, Jane, again!" "And yet the source of alcoholism is known, and rather than destroy it—it seems to us girls that they are trying to alibi or camouflage the source—if it is a disease why not treat the source like other diseases?"

THE SMART FAMILY NEITHER NEEDS NOR DESIRES ALCOHOLIC STIMULANTS for FUN
