

**HIGHWAY ACCIDENTS
MAR TRAVEL SAFETY**

Gasoline and whiskey have combined to make a bad record on Morrow county highways recently, as crumpled fenders and battered radiators mutely testify. Some of the parties involved have called to answer charges filed by the State of Oregon and in other cases the authorities are searching for some involved persons who have failed to turn in a report.

Leslie H. Warfield, under \$300 bond to appear before Justice J. O. Hager Tuesday has been granted more time to prepare his defense. He is charged with sideswiping the light panel truck of the Heppner laundry on April 5. He did not stop at the scene of the accident, it was alleged, but the occupants of the other car obtained his car license number and he was picked up later.

Leo Lester Anderson, picked up by Officer Edgar Albert, was fined \$10 and costs for operating a car with improper license.

A motorist apparently under the "affluence of inkahol" sideswiped the car of Archdeacon and Mrs. Neville Blunt Sunday night just below Heppner. Mr. Blunt drove almost off of the road in trying to avoid a collision but the other fellow assumed the attitude of "why don't you look where you're driving?" and declared he was on his side of the road. The court will decide the matter when the party is located by the sheriff.

Mr. and Mrs. Clayton Wright are going to Portland today after their furniture. They have rented the small house from Joe Devine and will need their furniture now.

Mr. and Mrs. Jim Farley have returned from a most enjoyable trip to Condon, Hood River and Mayville where they visited their children and families.

Jack O'Harra has arrived home with his discharge papers which he received at Ft. Lewis, after many months of service in the army in the European theatre. He is the son of Mr. and Mrs. Newt O'Harra of Lexington.

Capt. Alfred VanWinkle is home on terminal leave from Madigan General hospital at Ft. Lewis where he has been a patient for some time. He is leaving today for Coos Bay to visit his wife, who is the home demonstration agent there.

**IT COSTS *More* TO BUILD AND
OPERATE A POWER SYSTEM, TOO!**

● Everything costs more these days, including the many items needed to construct and run an electric system. For example, the price of a standard cedar pole has doubled since 1940... our taxes have increased 70%... average wage rates are up 44%.

☛ ...yet PP&L has cut average electric prices 30%
in the last 6 years!

It seems too good to be true. But just look at the record: Today PP&L's average rate for residential electric service is nearly one-third less than what it was in 1940!

How has this been accomplished in the face of sharply rising costs? The answer is hard work... efficient management... 36 years of electrical "know how"!
