

## Southern Tree Farms Hold Lead

The South continues to hold its lead in the tree farm program which is sponsored by forest industries to perpetuate the country's forests. More than half of the over 11 million acres of forest land certified as tree farms is in the Southern states, although the movement began on the West Coast.

Although the tree farm program was only inaugurated in 1942, the country now has 945 tree farms with an area of 11,134,950.09 acres. Of this, the South is credited with 6,868,402.77

acres on 807 tree farms. Alabama leads the South with 303 tree farms to her credit. Arkansas, with 257, is second and Mississippi, who made a gain of 287 percent over last year, is third with 143 tree farms. Other states represented in the tally are Texas, 90, and North Carolina with 14. Florida, South Carolina, Tennessee, Maryland, West Virginia and New Jersey joined the program last year.

In the West, which has 138 tree farms totaling 4,266,547.32 acres, Washington is first with 41

tree farms, Montana and Idaho are tied for second place with 24 each. Oregon has 23 and California 21. Wisconsin joined the movement last year.

Despite rigid requirements for membership, which include maintenance of good protection against fire and harvesting by continuous yield methods, or timber-cropping, the movement has spread rapidly since its inception four years ago.

overseas. Every jar of food preserved at home will do its bit toward saving lives and promoting world peace, as well as helping the family to be fed economically and adequately, says Lucy A. Case, extension nutritionist.

The prospects for canning sup-

plies are good, with the exception of sugar. Spare ration stamp 9 is now good for 5 pounds of canning sugar, but it seems best to delay purchases until needed as it is for canning only. Spare ration stamp 9 will be good until October 31st. The rationed amount of sugar is

### More Importance Placed on Home Canning This Year

Home canning is more important than ever this year with inflated prices at home and famine stalking

1/2 cup per quart of finished product. In making syrup, the rationed proportion is approximately 1 cup of sugar to three cups of water or 225 per cent syrup. It is expected that only one additional stamp for home canning sugar will be issued this year, and that the total sugar ration for home canning will not exceed ten pounds per person.

The prospect is good for production of aluminum pressure cookers, enamel boiling water bath canners, glass jars, tops and rings. The supply of tin continues to be scarce.

### NEW GRANDPARENTS

Mr. and Mrs. Harry Tamblin are gradually becoming accustomed to the terms "grandma" and "grandpa" since the arrival on April 27 of a baby boy at the home of Mr. and Mrs. Joseph Frank at Springfield, Pa. The mother is the former Peggy Tamblin.

Why Chase PAYS YOU MORE FOR YOUR CAR

With used car markets from Illinois to California we operate a volume business. We buy tires by the cartload, parts by the gross, paint by the drum, etc. This saves money.

The savings we make on other things enable us to pay you more for your car. We're willing, for frankly we need cars!

Get our offer! Be money ahead!

**"MY! HOW YOUR CAR HAS GROWN!"**

Just in the ten years from 1930 to '40 average horsepower of cars increased 99 per cent! That means a lot tougher job for motor oil. And that's why RPM Motor Oil has extra ingredients to solve all the problems of today's high-powered engines — problems that a straight mineral oil just can't handle. These compounds in RPM Motor Oil end carbon trouble; protect hot spots that other oils leave bare, exposed to wear; prevent corrosion, sludge, foaming. Try it!
