FIDELIS UNREIN, Editor
 Howdy Folks: One difference between a June bride and an old maid is the bride has had a wedding march while the old maid hasn't even had an overture.
 . . .
 The tragedy of a June bride's life, though, is when she realizes how few new dresses she can buy on what the poor dimwit can make.
 . . .
 Of course some times the marriage doesn't work because the bride has to.
 . . .
 As one of our customers says, men want women and women want diamonds and that keeps the men on the rocks.
 . . .
 Which, we suppose so often makes the state of matrimony entirely without capital.
 . . .
 You can save a lot of your capital by taking advantage of our saving services. We always strive to give you the most for your money.

THIS CITY OF 12,000 SPRANG UP LAST YEAR . . . can you name it?

Of course you can't, because it doesn't really exist all in one place. Part of it is right in your own community. But if you put together all the 3,039 new homes served in the past year by the PP&L, you'd have a city of over 12,000 inhabitants.

Population growth like this means that there's greater business activity in the region. For example, in the last 12 months alone PP&L has connected up 84 new industries and 638 new commercial establishments.

This all adds up to the impressive evidence of continued and healthy growth of the progressive region which PP&L has been helping to develop since 1910.

CHEAP AND ABUNDANT POWER for a growing region
 Today PP&L is supplying 64% more power than in 1940, and the average price it receives has dropped 27%.
