Gas & Air

FIDELIS UNREIN, Editor

Howdy Folks: There's no place like home, especially if you haven't the money to go out.

Of course you do not have to take into consideration the fact that the novelty of married life does wear off.

There was the party who believed in free love. He hadn't supported his wife in three years.

MOST MEN KEEP THEIR WIVES BECAUSE IT'S THE SUPPORTING THING TO DO.

Of course it isn't always love that enables married couples to get along. Sometimes it's just plain common sense.

AND IT'S GOOD COMMON SENSE TO BUY OUR BRAKE SERVICE.

The proof of the pudding is in the eating. Why don't you try it?

4TH OF JULY SPECIAL
THIS WEEK ONLY

PRECISION LUBRICATION

Only **2.25**

HERE'S WHAT WE DO:

- 1 Lubricate according to your car manufacturer's specifications.
- 2 Inspect oil filter and air cleaner.
- 3 Test strength of cells; all battery with water.
- 4 Inspect crankcase oil level and make recommendations.
- 5 Oil accelerator pedal, door hinges and handles; treat latches and hood linings with Door-Ease.
- 6 Check transmission and differential for correct oil level.
- 7 Clean all fittings before and after lubricating.
- 8 Remove front wheels and inspect bearings; repack if necessary.
- 9 Inspect tires for nails, glass, etc., and inflate.
- 10 Clean windshield and sweep out inside of car.

PUZZLED?

THE SEASONED TRAVELER Goes by Train

WITH FASTER Union Pacific trains now operating... with long-deferred business, family and pleasure trips to make... with ample space available... why put off travel? Fast, comfortable Union Pacific trains will take you wherever you want to go—NOW!

Recent schedule changes of Streamliners and steam-powered trains eastbound, westbound and locally have cut several hours, in many cases, from previous running times. These changes, which became effective on June 2, work to the definite advantage of the business traveler and the vacationist. For complete information, inquire at any Union Pacific Ticket Office or of your local agent.

AN ELECTRIC HIGHWAY 2530 MILES LONG

Through the valleys and across the plains stretch mile after mile of rural power lines, bringing low-cost dependable PP&L electricity to more than 14,000 Pacific Northwest farms. This network of rural lines, under development since 1910, helps make our agricultural region one of the most highly electrified in the nation.

Even though Washington and Oregon have more than their share of vast distances and wide open spaces, they stand eighth and ninth among the 48 states in percentage of electrified farms.

More than 80% of Washington and Oregon farms are electrified. By comparison, Tennessee, in the heart of the much publicized Tennessee Valley Authority, has only 25% of its farms electrified.

Today PP&L continues to connect up farms in this rapidly growing region—as fast as the supply of scarce line materials will permit.

CHEAP AND ABUNDANT POWER for a growing region
Today PP&L is supplying 64% more power than in 1940—average price it receives has dropped 27%.
