You Want Your New Car NOW

and we want to deliver it as soon as possible . . .

Answers to Questions Frequently Asked About the Delivery of New Ford, Lincoln and Mercury Cars:

Q: Can I place my order for a new Ford, Lincoln or Mercury now?

A: Yes. We shall be glad to take your order now.

Q: When can I expect to get a new car, if I place an order now?

A: We wish we could tell you exactly when your new car can be delivered, but there have been so many interruptions in production during recent months, we hesitate to even make a guess.

Q: But can't you give me some idea when I can get delivery?

A: We're awfully sorry, but we can't, and here's why. The Ford Motor Company can't tell us how many cars they will be able to let us have in the near future . . . and until we know how many cars we can count on getting, we just can't forecast future deliveries. Frankly, the way things look now it will probably be several months, and maybe even longer.

Interest Reduced On GI Insurance Loans by Government

Veterans of this area who

have loans on government life insurance policies will benefit from the reduction of interest rates from five to four percent annually. Charles M. Cox, Veteran Administrator representative in Pendleton, pointed out.

The recent rate reduction is in keeping with the present trend of interest rates on policy loans made by commercial life insurance companies, Cox stated. It follows by seven years a previous reduction, which was from six to five percent.

In the nation, about 127,000 veterans of both world wars will save more than \$1,000,000 worth of loans outstanding against U.S. government life or national service life insurance, as a result of the latest cut.

Cox pointed out that veterans may secure loans on permanent plans of G.I. insurance after their policies have been in effect one year. Inquiries may be made to Charles M. Cox at the County Court house here, where he is available to veterans from 9:30 a.m. to 4:30 p.m. on Tuesdays.

On the other hand, every effort is being made to secure needed materials and parts in sufficient quantities to maintain full Ford production. And we are all hopeful that the present uncertain industrial conditions will be adjusted. As soon as this can be done, Ford Motor Company can and will step up production to full capacity . . . and then it will be possible to make delivery quicker than can be foreseen right now.

Cleve Cox and Harvey Payne of Hermiston were in Heppner Tuesday on business in connection with the estate of the late Charles B. Cox. The two men are brother and half-brother of the deceased. Luther Payne, another brother, died recently at Galax, Virginia.

Mr. and Mrs. Frank Engkraf left for Portland today where they will attend a premiere of the new Frazier and Kaiser cars. Heppner Motors, of which the Engkrafs are the owners, have the agency for these new cars.

Engkraf hope to learn something about delivery on them. The premiere is being held at the Windolph Motor company showroom in Portland.
