

**Lexington Items . . .**

By Mrs. Mary Edwards  
 Mr. and Mrs. Douglas Gibson are the parents of a daughter, Sally, born Sept. 29 in Pendleton.  
 Lexington PTA sponsored the reception which was given Thursday evening in the Ladies Aid room of the Congregational church. Mrs. Clarence Hayes, president of the PTA, introduced the teachers

and Mr. Ludwig responded for the teachers. Mrs. Faye Munkers was in charge of the program which consisted of songs by the audience, a trio by Truman Messenger, Rev. Moreland and Truman Messenger Jr., accompanied by Mrs. Messenger, and a question and answer game. Refreshments of ice cream, cake and coffee were served.  
 Rena June Messenger was pleasantly surprised Friday evening

when the young people of Lexington arrived at her home to help her celebrate her birthday.

countries understood our foreign policy, but a better thing if we understood it ourselves.

We thought when we disposed of Hitler our foreign problems would be simplified. You remember Hitler. He was the man who was positively nazi-ing.

Our policy has always been to give you the most of everything in our line for the least money.

That will continue to be our policy even in these times of

rising markets.

**THE "PUBLIC" POWER PROMOTERS DON'T LIKE THIS AD!**

**8 out of 9 PUDs charge more for electricity!**

**Pacific Power & Light**

For years and years the "public" power promoters have been shouting that once a PUD got in business, electric rates would be reduced to practically nothing!  
 Then last month ads like this exposed the fact that 8 out of 9 PUDs distributing Bonneville power actually get a higher average price for residential electric service than PP&L.  
 That bombshell really made the power politicians run for cover!  
 "Comparing average prices isn't fair!" they cried.  
 "Your average price is lower because your customers use more electricity than people served by PUDs."  
 Sure, our customers use more electricity. Isn't that desirable? We thought the promise of the "public" power crowd was an abundance of cheap electricity. If they had been able to carry out their big promises their customers would be using a lot of electricity, too.  
 For years now we have been working to:

1. Increase the sale of electricity
2. Improve service
3. Lower rates

The three go hand in hand.  
 If, in spite of tax subsidies, any PUD can't keep up with a taxpaying business concern in this kind of program... well, draw your own conclusion.
