

## Heppner Post To Entertain District On Armistice Day

### Football Game, Buckburger Feed On Day's Program

A revival of pre-war observance of Armistice day is seen in the program prepared by Heppner Post American Legion for the entertainment of neighboring and district posts here next Monday. Invitations have been accepted by Heppner Post, Arlington and Hermiston posts as well as district officers to spend the day here and participate in the festivities.

A featured number on the program will be the annual Armistice day meeting between the Hermiston and Heppner high school football teams. This gives promise of being the number one game for the local squad, since Heppner is one up on the Hermiston boys. A parade is being organized to start at the OK Welders shop at 1:30 and lead the procession to the Rodeo field where the pigskin gladiators will uncover their bags of tricks on one another.

The Legion has invited the Heppner school band to play during the game and Director Billy Cochell has consented to present the young musicians in their first public appearance this year.

All legionnaire guests have been requested to meet at the Legion hall prior to the game and to return there following the game. Entertainment will be provided for guests at the hall.

In the evening two events have been planned to keep the local membership and guests interested. At 6:30 p.m. the annual buckburger feed will be served at the I. O. O. F. hall. Following that there will be a dance at the Rhea Creek grange hall to which the public is invited. The football game is scheduled to start at 2 o'clock.

## Tax Levies Zoom To All Time High in County, State

The Dalles, Ore. — (Special) — Taxes on all property in Oregon, including homes, farms, pastures, skyscrapers and timber, for current 1946-47 fiscal year, zoomed to an all-time high of \$53,280,111, or \$9,083,861 more than was levied in Oregon, 1945-46.

The four counties with lowest percentage of 1946-47 property tax increase, this fiscal year over 1945-46, were Wheeler, Multnomah, Sherman and Baker. These counties showed only 8.6, 9 and 9.1 percent increases respectively.

## Veterans Eligible For Assistance if Earnings Are Low

World War II veterans who are farming or in business for themselves but not earning \$100 a month are in most cases eligible for federal subsistence payments, Charles M. Cox, Veterans Administration representative in this area, pointed out today.

Up to August 1, 2897 Oregon veterans had received a total of \$1,196,756 under this provision of the G.I. bill, Cox said. Self-employment benefits are intended to make up the difference between monthly earnings and \$100 for a maximum period of 10 2-5 months if the veteran has more than 9 1-2 months of service to his credit.

In Oregon 36 claimants had used up their entitlement. Among the 357 self-employed veterans receiving subsistence during July, 189 were engaged in agriculture, forestry or fishing, five in mining, 18 in contract construction, 52 in manufacturing, 10 in transportation, communication or other public utilities, 30 in wholesale or retail trade, seven in finance, insurance or real estate and 46 in service industries.

## Republican Landslide Sweeps Democrats Out Of Congress Control

The old slogan, "As Maine goes so goes the nation," came back into reality Tuesday when most of the states outside of the solid south swung back into the republican column. Important gains had been expected but no predictions of such sweeping changes in the political complexion of the country had been anticipated.

Result of the landslide is to place the GOP in control of both houses of congress, reversing the situation of 1930 when a democratic congress thwarted Herbert Hoover in his efforts to bring the country out of a nationwide depression. There was no depression this time to make an issue of but in the language of Senator Taft of Ohio, the people are against giving an arbitrary central government the power and money to regulate their daily lives.

With the election of at least 23 senators, the republicans have a majority in that branch of congress, while there is a majority of 14 or more in house of representatives. In addition to congressional gains, twenty republican governors were elected.

Oregon kept in line with the national trend and returned a solid republican delegation to congress. Re-election of Governor Earl Snell, Secretary of State Robert S. Farrell Jr. and W. E. Kinsey, labor commissioner by huge majorities was followed by election of an almost unanimous republican legislative assembly.

A surprising upset to democratic hopes was the un-swinging of the state of Washington. This was a key state and outcome of the election was in doubt until the vote counting started. Washington very definitely swung into the republican column. Gains were registered in California, another state that has profited directly from New Deal spending. New Dealers, headed by James Roosevelt and supported by Henry Wallace, failed to hold the state in line and the republicans are in the majority.

So the story goes in many states that once were solidly republican but fell under the spell of the late President Roosevelt for 12 years or more.

## Auxiliary Getting Ready for Annual Gift Shop Benefit

Christmas is here for the American Legion auxiliary—the time for the ladies to prepare for the annual Christmas Gift Shop program, the date deadline for which is November 20.

The Christmas Gift Shop is conducted at the veterans hospital in Portland. Gifts are sent there for veterans to make selections for their families. Donors are asked to send new gifts only, but paper and ribbon may be enclosed.

A suggested list of gifts suitable for the gift shop includes bath towels, pillow cases, tea towels, stockings, children's hose, pot holders, cosmetics, stationery, shaving sets, brushes, ties, children's dolls, toys. If you are including talcum and bath powders, it is urgent that you leave them in the original store wrappings so they will not crush and spill over other articles.

Do not send dishes, glassware or other fragile articles as they are sure to break in mailing. Any gift you would select for a member of your family is suitable for the gift shop.

Gifts may be left at the Heppner Hardware & Electric company store.

## Road To Monument Should Be Club's Number 1 Project

Construction of a highway leading from the Parker's Mill turnoff on the Heppner-Spray Highway to Monument should be the No. 1 project of the Heppner chamber of commerce, P. W. Mahoney told the luncheon group at the Lucas Place Monday noon.

"Such a road is highly desirable from Heppner's viewpoint and it would give the Monument section a more direct outlet to outside markets," Mahoney stated. "It is desirable in the interests of the forest service, the lumber companies operating in that part of the Blue mountains, the stockmen in that section of the John Day country and to the general public. I urge that the chamber of commerce direct its efforts towards securing construction of this road," Mahoney concluded.

The matter of holding a celebration dinner in recognition of completion of the Heppner-Condon highway was presented and C. F. Tolleson and O. G. Crawford were asked to probe the possibilities of holding such a meeting and to make arrangements for it.

## P-TA Dinner And Carnival Attract Many Customers

Marguerite Glavey, P-TA Reporter

Under the able leadership of Mrs. Tress McClintock, president, the potluck dinner and carnival held at the school cafeteria and gymnasium Saturday evening was a gala event.

Approximately 200 persons were served and the evening proved entertaining for both children and parents. There were numerous and colorful booths, manned by willing and cheerful workers.

Popular among these booths was the fortune-telling tent, whose beautiful mystic, under her gay paint and eye-catching earrings, resembled Mrs. Tom Wilson, and whose knowledge of the future attracted a seemingly unending queue of anxious children intent on learning of their future.

The Barker, Frank Connor, with his quips and banter, enlivened the scene and made good use of his talent as an auctioneer.

Where there's a Barker there's usually a banker and in this instance Tress McClintock had help in Edmond Gony and Conley Latham, when the coffers grew too heavy.

## SEES PARENTAL SUPPORT

Billy Cochell, band director, has issued an invitation to parents and others interested in the welfare of the band to meet with him at 8 o'clock next Thursday evening in the music room at the schoolhouse to discuss the school band. He is interested in promoting a better understanding of the band's work and in developing closer cooperation with school patrons. It is only through this cooperation that the band can be built into a creditable musical organization, Cochell contends.

He was not mistaken for an elk but when one of the hunters shot an elk the bullet was deflected by a bone and struck him. He was taken to the Prairie City hospital where his injury was given emergency care and arrangements were made to fly him to Fort Lewis, Wash., today.

Sgt. Robinson had been home about ten days, having been released from the base hospital at Fort Lewis. He was on terminal leave and was in line for discharge soon.

## County Sanctions Only One Measure In Tuesday's Vote

Morrow county voters generally did not like the several measures on Tuesday's ballot and when returns from all precincts were in it was found that but one measure had carried—the constitutional amendment providing for succession to office of governor.

A tally of the unofficial count gives the following results:

Governor succession—Yes 539, no 270.

Armories bill—Yes 174, no 657.

House Bill 86—Yes 320, no 579.

Chinese real estate and mining claim bill—Yes 413, no 467.

Amendment permitting legislative bills to be read by title only—Yes 321, no 430.

Amendment increasing number of senators to 31 members—Yes 248, no 564.

Fish bill—Yes 385, no 412.

Old-age pension bill—Yes 241, no 551.

In voting for candidates, the county followed the general trend where both parties were represented and voted strongly republican.

For congressman, second district: Stockman 800, Townsend 224. Stockman's majority 576.

For governor: Donahou 208, Snell 827. Snell's majority 619.

For secretary of state: Epps 185, Farrell 853. Farrell's majority 668.

For labor commissioner: Kinsey 601, Peoples 371. Kinsey's majority 230.

With no contests for state senator and state representatives Ellis for senator received 817 votes and French 517, Peterson 919.

Official tabulation of the county ballots will be made this week end.

## Oregon Advertising Brings Wide Response

In addition to current thousands of requests for Oregon information, pulling power of Oregon's ravel advertising program was shown this week by receipt of answers to ads placed over ten years ago, the state highway commission travel information department reported.

The day that the mail brought an inquiry from George Jacobs of Brussels, Belgium, in response to the September 28, 1946, Saturday Evening Post ad, also arrived five requests from the east for Oregon Geographic in 1936. The next day a query arrived from Brooklyn, N. Y., in answer to the second Geographic ad placed in the same year.

The department inserted its first ad in National Geographic shortly after the form was established to invite Oregon's bid for more visitors to travel Oregon highways. Since then the state has carried on consistent travel promotion activities, with the exception of the war years when advertising was authorized on an institutional basis.

With the coming of peace an expanded program has been underway, with several ads already appearing this fall in the Saturday Evening Post, Colliers, Sunset and Geographic, bringing responses from every state in the union and foreign countries.

Travel department officials pointed out that advertising campaigns of past years are continuing to bring results, adding to the appeal of the campaign now underway for the next travel season. Likewise, advertisements now being published will work for Oregon for years to come, they said.

Growing volumes of mail include many detailed information requests from prospective eastern, midwestern and Pacific coast visitors in connection with vacation plans for next year, as well as for winter sports visits, as inspired by current advertising.

Queries from Europe, Africa, Canada and other foreign countries indicate a greater volume of travel from abroad as international transportation slowly approaches peacetime normalcy.

## SUMMER LAKE HUNT GOOD

Waterfowl hunters have checked out a total of 5,938 ducks and 1,998 geese from the game commission's waterfowl management area at Summer Lake during the period from October 26 November 3, inclusive.

The entire kill during the 1945 season amounted to 6,296 ducks and 2,864 geese.

## Latest Returns Indicate Both School Bill Approved

Late returns indicate that both school bills carried in Tuesday's election. A tabulation of 1893 out of 1846 precincts showed House Bill 80 with a lead of 19,351, while the basic school support bill had a much smaller margin, 3790.

Returns indicate that the Multnomah and other western Oregon counties' vote gave support to the school bills while upstate counties, particularly eastern Oregon, registered a heavy vote against them.

Complete returns are not in and it is possible that the basic bill may get by on a narrow margin. It is not likely that the rural school measure majority will be noticeably reduced.

The old-age pension tax was decisively defeated by a 2 1/2 to 1 ratio. Yes 79,985, no 225,908.

Lowell Stockman, with nearly all precincts accounted for, led Lamar Townsend by 14,848 votes.

Governor Earl Snell was ahead of Carl Donahou by 119,510 votes. Secretary of State Robert S. Farrell led Dave Epps by 146,982 votes.
