Auxiliary Supports Legion's 9-Point Legislative Program

The American Legion auxiliary met at the home of Mrs. A. W. Jones, Tuesday, January 7, at which time Mrs. H. A. Cohn, legislative chairman, reported that the women of the American Legion auxiliary nationally are giving energetic support to the nine-point legislative program of the American Legion.

Auxiliary women are working measures endorsed by the legion to awaken public interest in which are before congress, said Mrs. Cohn. She outlined the nine-point program as follows:

1. Measures for the benefit of disabled veterans, their dependents, war widows and orphans.

2. Legislation to carry into effect the Legion's veterans housing program.

3. Immediate repeal of the ceiling on subsistence allowances and the two-year limitation placed on on-the-job-training for veterans.

4. Immediate redemption in cash of G.I. terminal leave bonds.

5. Legislation to provide veterans with adequate re-employment rights.

6. Enactment of the Legion's plan for universal training for national security.

7. Educational aid from the federal government of \$50 per month to orphans of veterans over 16 years of age who wish to attend college.

8. Amendment of the Social Security Act to provide federal reimbursement to the state for aid to dependent children equal to 50 per cent of money granted by any state for this purpose.

9. Defeat of any legislation which would break down the principle of veteran's preference in government employment.

The program for the next regular meeting will be on National Defense. Refreshments were served by the hostess at the conclusion of the meeting.

FIRST NATIONAL'S LOANS REACH NEW HIGH, YEAR-END FIGURES REVEAL

First National bank's active participation in Oregon's post war business program is revealed in the year end bank call figures, showing outstanding loans of \$188,318,983, a \$25,000,000 gain over the figure of Dec. 31, 1945, which stood at \$163,318,983. No one phase of bank lending was overemphasized in this advance, but the general gains involved all lines of credit—and all units of the state-wide organization.

The United States government, at the start of 1946, had a temporary deposit of \$107,874,421 at the First National bank. During the year this deposit was whittled to \$10,737,540. Thus the \$111,399,441 in commercial and savings deposits

Milestone Car "Sealed in Cellophane"

An "orchid" among motor cars is this milestone model, the 19,000,000th Chevrolet built in the 35 years of the division's history. Production of this car early in December highlights the endeavor of automotive manufacturers of America to supply a car-burgry nation within the limits imposed upon the industry by current business conditions. Top-ranking executives of Chevrolet who "delivered" this welcome souvenir "wrapped in cellophane" are Nicholas Dreyfus (left), general manager, and T. H. Keating, general sales manager.

Adopted Sons in Vets Hospital Would Have Noses Counted

When the census takers make the next count of residents of Morrow county, they will have to make a trip to the Walla Walla veterans hospital if they do not want to overlook a lot of Uncle Sam's nephews who consider themselves adopted sons of the county, according to Lawrence L. Jacky, chief of special services of that institution.

This statement came as a tribute to the especially fine work that has been done by the Morrow county Camp and Hospital council, in its contributions to the material comfort and morale of patients at the hospital.

With Mrs. Ralph Thompson and Mrs. Ben Anderson, Morrow county members of the camp and council coordinating the community activities in the program, most of the patients in Ward 7 of the hospital have come to know by name, a large number of residents of the county through their donations to the boys on the ward, although they have never seen them.

"While the material contribution made by Morrow county citizens can be put down in black and white, it is impossible to measure in terms of so many words, the more important contribution that their interest has made to the morale and general welfare of the patients," Jacky said, and added, "We who are in close touch with the patients know what a vital part this plays in their progress toward recovery."

ON the SUNNY SIDE

An American general attending an official dinner in London found himself seated next to a Chinese. Figuring the man knew little or no English, he avoided speaking to him and gave all his attention to the man on his right. He felt, though, that he should give the Chinese some attention so after the soup plates had been removed he turned to the Chinese and asked, "Likee soupee?" The man seemed startled at first but smiled and nodded his head. Nothing more was said.

After dessert and coffee the general suddenly became aware of the fact that his Chinese neighbor was standing and speaking brilliantly in perfect English. The American general figured most uncomfortably for the full ten-minute speech.

As he sat down, Dr. Wellington Koo, the Chinese ambassador and a graduate of Columbia university and Oxford, turned to the general and asked with a justifiable amount of sarcasm, "Likee speeches?"

reported at the close of 1946 compared favorably with the \$573,271,222 deposits reported December 31, 1945. Taking into account the withdrawal of temporary government deposits, the bank established a clear gain of more than \$35,000,000 in local deposits.

Veterans Administration approved loans to Veterans neared the 350,000 mark during December and, as was to be expected, the majority were for the purchase of homes. The total on September 30, as reported in VA by approved funding agencies, was 345,900. Each figure in the above pictograph represents 10,000 loans.
