# HOSPITAL CUT-UPS

## USO Shows Vets Latest in Hairdos

LAUGHING at the USO locksmith who's giving him the latest in coiffures is hospitalized veteran George Ragle of De Ridder, La., (right). A little dubious about this hairy escapade, though, is his wheelchair buddy, Earl J. Rawley of Houma, La.

The audience of patients at the New Orleans Veterans Administration Hospital, however, found the proceedings very amusing indeed. This was just one of the stunts put on at the hospital by hostesses from the New Orleans USO-NCCS Club, aided and abetted by members of a USO-Camp Shows variety troupe performing at the hospital that night. Demonstrating the latest in hairdressing techniques are hostesses Barbara Kampen, left, and Dorothy Graton.

Hostess programs and USO-Camp Shows for hospitalized veterans are emphasized in the USO program for 1947. USO is now campaigning for funds with which to help these men, the million and a half men still in service, and the families of service men during this year.

# News From C. A. Office

Orlan Wright was re-elected supervisor of the Heppner Soil Conservation district at the annual meeting held at the Lexington Grange hall Monday in conjunction with the annual meeting of the Lexington Oil Co-op and the Lexington Blow Control district. More than 100 Morrow county farmers attended the joint meeting.

The first annual report of the district since its reactivation in January, 1946, was read by Orville Cutsforth, vice chairman. Because of war conditions, the district was on an inactive basis from August, 1943, to the first of last year, it was pointed out.

A summary of work completed in the district the past year included land leveling improvements on 120 acres on seven farms, construction of two and a half miles of contour terraces and diversion ditches, seeding of grasses and legumes on 211 acres and construction of six farm ponds for stock water. Other important practices carried out by cooperators within the district included cross-slope and contour operations, utilization of crop residues and improvement of range conditions by rotation grazing and proper stocking.

A total of 70 ranchers have signed agreements with the district board for conservation work on 174,957 acres to date, the report showed. Conservation surveys have been completed on approximately 229,000 acres within the district. Special engineering surveys on individual fields for land leveling and irrigation systems were completed on 245 acres this year.

The financial report, prepared by Orlan Wright, treasurer, showed a total of \$863.55, with \$54.71 for expenditures, leaving a net cash balance of \$808.84. Of the receipts, \$693.50 was received from the sale of equipment granted to the district by the soil conservation service.

The district is in active cooperation with the SCS and the extension service, it was pointed out. Equipment, materials and technical assistance have been made available by the SCS. Equipment includes two grain drills, rotary scrapers, rotary subsoiler and sheepfoot roller. The SCS also furnished 400 pounds of grass seed for demonstration purposes.

Whereas, Thomas Alva Edison devoted his entire life to bettering the welfare of mankind and through his invention of the incandescent and fluorescent lamps, the phonograph, and the motion picture and his nearly eleven hundred other inventions gave the peoples of the world added comfort, health and a multitude of conveniences and

Whereas, these inventions have created vast industries which are giving regular employment to millions of Americans, and

Whereas, we are only now beginning to realize the true greatness of Thomas Alva Edison—that he was one of the greatest men who ever lived and that the force for good and for the progress of mankind, born with Edison, shall never die;

Therefore, I, Conley Lanham, mayor of the city of Heppner in the county of Morrow and the state of Oregon, do hereby proclaim the 100th anniversary of the birth of Thomas Alva Edison, February 11, nineteen hundred and forty-seven, to be celebrated as Edison's Birthday; and I do hereby urge all citizens to pause on this day for a moment of reverent homage to one who has contributed in such a large way to the comfort of all, to an outstanding American, to humanity's friend, Thomas Alva Edison.

In witness whereof I have set my hand this 4th day of February, 1947, and have caused the seal of the city of Heppner to be affixed.

CONLEY LANHAM, Mayor.
