

From where I sit... by Joe Marsh

Industry Looks at Our Town

Maybe you read how a group of industrial experts have decided that the small town is the place for industry—not big cities. Reasons they give are better housing, pleasanter living, and more opportunity for wholesome recreation.

Well, looking around our town I'd say that was about right. Most of us own our homes, and keep them looking nice; we enjoy each other's company; and our recreations are mostly simple outdoor sports, and in the evening a mellow glass of beer with pleasant company.

As Doc Walters says, that sort of life just naturally sets you up for work the next day... whether it's in office, mill, or field. And Doc should know. He works fourteen hours, but never misses his morning "constitutional" or his evening glass of beer with friends.

From where I sit, any industry could profit from being in a town where wholesome living, temperance, and friendship are the rule.

What Makes Telephone Jobs Good Jobs?

We believe telephone jobs are good jobs. But we'd like to tell you something about working conditions in the telephone company so you may decide for yourself. Good jobs are made up of a number of things... for example...

- **Is the work steady?**
Telephone pay checks come regularly—month in and month out. That's mighty important to wage earners who can plan ahead and have reasonable assurance of steady telephone work all through the year.
- **Are extra payments made for Sundays worked?**
Yes. Double time is paid for specified holidays worked. Full pay, with a few exceptions, is received by those who do not work these holidays. The holidays are New Years Day, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Thanksgiving and Christmas.
- **Are there paid vacations?**
Certainly. After a year's service, employees get one week with pay... two weeks after two years on the job... three weeks after fifteen years.
- **Are there sickness benefits, death benefits and pensions?**
Yes, since 1913 and provided at no cost to the employee.
Sickness benefits range from four weeks at full pay plus nine weeks at half pay for an employee with two years' service on up to a year at full pay for those with 25 years' service. The spectre of illness doesn't worry the telephone family quite as much as it would without this plan.
Death benefits to dependents range from four months' pay for an employee with two years' service on up to a full year's pay for an employee of ten years or more.
Pensions—A fund plan paid for wholly by the company. Money accumulated over the past twenty years is held by the Bankers Trust Company as trustee. This money can be used for employees' pensions only. Each employee's pension is based on his rate of pay and length of service.

● **Are cafeterias provided?**
Employee cafeterias, in larger offices, serving quality food at low prices... attractive lounge rooms... good surroundings... are just a few of the things that make telephone work pleasant.

More than 10,000 people here on the coast have liked their telephone jobs well enough to spend more than 15 years with the company.

These things coupled with a policy of paying wages that compare with those paid for jobs requiring similar skill and training in this territory have made it possible to attract good people to these jobs.
