Lem's Dogs vs Thad's Chickens

Running a newspaper, you get to know a lot about human nature. Thad Phipps was in the ether day, all burned up. Wanted me to run an item on how Lem Martin's dog had raided his chickens again, and ought to be put away by law. I told him: "Lem was in on Saturday. Said you shouldn't be allowed to keep those chickens so close to his house—and in a residential zone, at that."

Thad shuts up right pronto then. And that very evening I see him making his peace with Lem at Andy Botkin's Garden Tavern—over a friendly glass of beer.

From where I sit, anyone can find something in his neighbor to complain about. (Some folks may even disagree with Thad's right to enjoy that glass of beer with Lem!) But where would we be if everybody tried to have a law passed against everything they disagreed with? We wouldn't have many neighbors left!

It's SMART TO BE A SAFE DRIVER

There you have it in black and white—the way to avoid many a fatal accident. And this is equally true—it's not "safe to be a smart driver!"

The young driver who slouches over the wheel and goes twisting and roaring through traffic for his own self-satisfaction and the adulation of others is as out of date as a 1910 flivver.

More and more, new drivers-to-be are enrolling in driver instruction courses, to learn how to be safe and intelligent drivers. They are taught how to operate and control a car. They become familiar with traffic rules and regulations—and the penalties for violating these established rules of the road. They learn that it is really smart to be considerate and courteous to others.

Many communities are making these courses available through their schools today. If your son or daughter is coming of driving age, see to it that they take a driver instruction course. If there is not one available in your town, ask the school or police authorities how you can obtain instruction material.

Make young drivers safe drivers—right from the start.
