Our statement of policy

We want our customers and the entire community to know ---

- 1 That it is our constant endeavor to raise to the highest degree the standards, ethics and practices of automobile merchandising.
- 2 That we seek, through cooperative efforts of local, state and national automobile dealers associations, the correction of any unfair or unbusinesslike practices.
- 3 That new cars are being distributed fairly and equitably, with every consideration being given to our community's interest.
- 4 That new cars will be sold at established prices current at time of delivery, and no bonus payment or premiums of any kind will be accepted.
- 5 That fair and reasonable value is given for every used car taken in trade; while we hope customers having used cars will, as in the past, trade them with us (so we in turn may supply more people with needed transportation) we will still make every effort to provide new or used cars to those not having cars to trade.
- 6 That while we are glad to install special accessories (when available) which add to the appearance, usefulness, comfort and convenience of the new car, no customer is required to purchase any extra equipment which he does not desire.
- 7 That we are doing everything in our power to help eliminate black market operations in our industry.
- 8 That despite the continued, critical shortage of new cars we are anxious at all times to talk over with you your new car needs.
- 9 That regardless of the termination of government regulations, affecting our business, we believe the high standards herein expressed are sound business principles, and we will be guided by them.
- 10 That our business is being conducted on a basis to merit public confidence and respect.
