

## News From C. A. Office

With Morrow County Fair time drawing nearer each day, it is time to urge every farmer in the county to be planning an exhibit of some kind for this year's fair. Classes have been set up in beef, dairy, hogs, sheep, poultry, saddle horses, grain and hay, fruits, vegetables and flowers, community booths, home economics, 4-H and FFA.

We have not had a good fair in Morrow county for some years. This is the year to get started in preparing to exhibit to make the fair a bigger and better one in years to come. Premium lists have been sent to all farmers in the county. Look over the list and get your exhibit ready now.

Your neighbor will have an exhibit there. Will you?

The county agent, last week, attended a conference of Gilliam, Wheeler, Grant, Harney, Sherman, Morrow county agents at Condon. The meeting, called by Wm. L. Teutsch, assistant director of extension service, Oregon State college, was for the purpose of making plans for the county agricultural planning conference that will be held in these counties during the fall and winter months. These counties are the last group of all the counties in Oregon to hold such conferences.

County agricultural planning conferences are held in all Oregon counties every ten years, with Morrow county having its last conference during the winter of 1936-37. Advance preparation planning committees will get under way with a "kick-off" meeting to be held at Heppner

on October 15. Planning committee meetings will follow with the general conference to be held some time the latter part of January 1948.

These planning committee meetings and the general conference is an important and worthwhile event for any county. Many farmers will be called upon soon to participate in committee meetings. We urge that you cooperate in this important undertaking and educational activity when called upon to do so.

Included in a forest service inspection tour that will be held this week is a visit at the John Wightman Blue Mountain ranch to see a pasture seeding made this past spring. The seeding, made to control gullying and develop hay and pasture meadows is a part of the farm plan prepared through the Heppner Soil Conservation district.

The initial seeding was made on May 15 when 28 acres of cultivated land was seeded to a permanent mixture of ladak alfalfa, timothy, Mt. Brome, Tall Outgrass and orchard grass using a total seeding of 15 pounds per acre. The seeding was made on cropped land, plowed in the fall, spring disced, harrowed, rolled with cultipacker, then seeded 1/2 inch deep with a double disc drill. The field was rolled again after seeding.

This seeding is a beginning of a meadow improvement program which will be further developed by seedings in 1948. Water developments, fencing, de-

Attending the Pendleton 4-H club tour on Friday, August 5 were 4-H members Roger Palmer, James and Peggy Wightman, Dean, Rieta and Jo Anne Graves, Barbara Sherman, Duane and Ronald Baker, Ingrid Herrmann and Allen Hughes. Ronnie Curran, Johnnie and Eddie Brosnan also attended in preparation for judging 4-H this fall. Mr. and Mrs. Markham Baker, Marvin Wightman, Jerry Brosnan and Jo Anne Graves furnished transportation for the group.

Activities for the day consisted of dairy and sheep judging, showmanship and fitting of dairy, sheep and beef. The group enjoyed free ice cream from the Oregon Wool Growers auxiliary, with a free swim in the nat-

ural swimming pool. Forest service officials from the regional and Washington, D. C., offices will inspect this seeding as part of their tour of forest conditions in this area.

torium as guests of the Pendleton Rotary club.

First 4-H home economics club to turn in project exhibits for the Morrow county fair to be held September 5 and 6 is a group of girls at Irrigon led by Mrs. Don Kenney. This is a clothing I club with Lenora Burnett, Donna Isom, Shirley Sharon and Sharlene Smith. Kathleen Umiker and Helen Steagall, club members enrolled and completing their projects.

Their clothing projects will be exhibited at the county fair at Heppner and the North Morrow fair at Boardman.

Beef club members are reminded that these cool nights we are now having are excellent to give your beef calves a good growth of hair for grooming for showing at county fair and later, Pacific International. Calves should be tied out or kept in corrals at night, being sure to keep them out of the sun during the day. Calves should be washed and fitted several times before county fair if your animal is to show to good advantage.

Premium lists are out now and all club members should look them over and check rules and requirements for the fair. Your attention is called to the special awards which are listed in the back of the book. Several other awards have been offered by individuals since the premium list was printed, which will be announced at the fair.

Here lie the remains of a driver who thought he could drink and still drive a car. Racing down the highway at a dangerous speed, his car wrenched off the edge of the pavement, dragged on the sandy shoulder, and was wrenched into a spin. Drunken drivers are potential murderers of every other motorist who comes near them on the road. They were involved in more than 5,000 fatal accidents last year. National Conservation Bureau safety specialists say even one or two drinks slow up reactions, make judgment unsure, increase chances of accident three to four times.
