### Sam's a Matrimony Expert

Sam Abernathy never intended to be a matrimony expert, but he hit the nail on the head the other day when he said:

"What marriage really needs is more open minds and a lot fewer open mouths."

Sam may not think much of his missus' choice of hats or her habit of serving watercreams and cream cheese salad. But he keeps his mouth shut (I mean, he just uses it to eat the salad). And the missus never criticizes Sam's affection for that worn-out chair before the fire,

and his mellow glass of beer and pipe at the end of a long day.

From where I sit, that prescription would apply to most human relationships. Criticism rarely rouses anything but resentment. But an open mind—whether it's applied to a woman's choice of hats, or a husband's preference for a pipe and a moderate glass of beer or two—leads to the conclusion that there's right on both sides.
