

Kizuan Attend Fossil Tournament In Large Numbers

By Elsa M. Leathers
A very large crowd of Kinzua people attended the basketball tournament all three nights at Fossil this week end, and was well pleased in every respect. Fossil high school boys were thrilled as well as their followers, over their thrilling victory over Condon on Friday night, and the second victory over Arlington on

Saturday, making them eligible to go to The Dalles for the district tournament later, where they meet St. Mary's boys. R. M. Boyles presented the trophy to Clarence Greenup, captain of the Hepner team, who won the trophy and will also be at The Dalles district tournament. Clarence was named first all-star and certainly deserved that high honor. Allen Mathews, Richard Greenfield and Gene Rourke were 3 Fossil boys picked on the all-stars and also were well deserving.

Arlington girls put on a very pretty drill on Thursday night and Condon girls put on a drill Friday, spelling C, F & H, which

was very pretty and the girls had worked hard preparing for it. Spray girls won the Wheeler county volleyball championship by defeating the Fossil girls on Saturday, 26-24.

Mrs. Sterling Wham was attending to business in Portland the first of the week.

Bill Green's car was badly damaged when a truck from the construction crew ran into him Tuesday morning on a curve on the grade. The occupants of neither vehicle were badly injured.

Stanton Hadley, only son of Mr. and Mrs. Glenn Hadley of Fossil and Camp 5, and Bee Morgan, Kinzua, were united in marriage at Goldendale, Wash., on Saturday. Their only attendants were Mr. and Mrs. Ed Morgan, brother of the bride, of Kinzua. Mr. and Mrs. Hadley left for a honeymoon trip to Kentucky, where they will stay for a few weeks before returning to make their permanent home at Camp 5 where he is employed.

Mr. and Mrs. Mike Coleman have been attending to business in San Francisco for some time. Kinard McDaniel spent the week end at Hepner attending to business. He encountered lots of mud and the highway was badly washed in one place. Eugene Thomas and Clyde

Irrigon News Notes

By Grace Shoun

"CATERPILLAR" DIESELS

Breathe CLEAN AIR...

The "Caterpillar" oil bath air cleaner does to it that:

1. Air passes through louvered openings.
2. Whirling air throws out large percentage of air-borne dirt.
3. Into glass jar where it is out of circulation.
4. Air then passes through central tube to bottom of air cleaner.
5. Rises through series of oil-bathed screens which catch finer dust and give air final thorough cleaning before passing to intake manifold.

Braden Tractor & Equipment Co. Your Caterpillar Dealer

2. This chest-style model came along after many modifications of the old timer. Telephone engineers liked its voice "pick-up." Operators liked its lightness and the freedom of movement it gave. As transmitters became better, central offices became quieter and more pleasant places.

3. Today's newest streamlined set is tops for comfort, say operators who've used it. It weighs under six ounces. It's an example of how we're making equipment more comfortable... to make the company the sort of place that attracts the kind of people who make good service possible.

4. Here's why telephone jobs are good jobs: Pay is good — employees paid while training • Regular raises, overtime and premium pay • Steady work — telephone people can plan ahead • Benefit plan paid for entirely by company — covers sickness, death benefits and pensions • Advancement within company • Paid vacations and holidays.
